Partnership Call: Helping Create Safe Learning Shelters for Ukrainian Children

The International Charitable Foundation "Angels of Freedom" is a Ukrainian non-profit organization specializing in the renovation and furnishing of underground shelters in kindergartens and schools.

Since the beginning of our work, we have successfully renovated and equipped 17 children's shelters, creating safe and child-friendly spaces for more than 5,000 children. Today, our team is implementing 8 shelter renovation projects, preparing to launch 3 more, and has already selected 29 additional educational institutions awaiting support.

Our current focus is on rural communities in Chernihiv region (Ukraine), where schools and kindergartens often remain outside the attention of large international donors despite facing the same security challenges. We believe that every child, regardless of where they live, deserves access to safe education during wartime.

We are actively seeking humanitarian and charitable partners willing to support children's shelters through donations of furniture, educational equipment, play and learning materials, storage solutions, and other items that help transform underground spaces into safe, comfortable, and development-friendly environments.

Urgent needs include:

Item	Example Photo
Children's folding beds	
Children's stackable cots (for kindergartens)	

Children's tables and chairs (ages 3–6)

Foldable desks

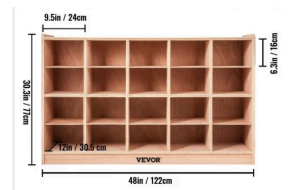

Foldable chairs

Toy storage organizers

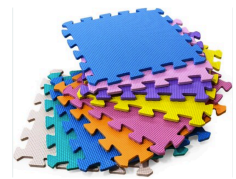

Classroom storage cabinet

Children's bookshelves
